S E L E C T M E N ' S R E P O R T

Presented herewith is the Annual Report of our Town, including the report of the School District.

Extreme care has been taken to clearly outline the essential details, wherever possible, of all departments making up our local government.

Changes that were voted last year have been made:

- (a) Erection of Back Stop at French Memorial Field.
- (b) Closing of road areas in front of Stevens Hall.
- (c) Purchase of Blade Plow.
- (d) Partial painting of interior of Town Hall.
- (e) Added equipment to Fire Department.
- (f) Bridge on Towle Road finished.

Town buildings are in good condition, although, as mentioned above, interior of Stevens Hall has not been completed.

We, the Board of Selectmen, express our sincere thanks to all Committees, all Town Officers, and the citizens of the Town for their cooperation, and work accomplished during the year.

I N M E M O R I U M

The passing of Walter Tenney was a deep loss to our community.

It was to him that many vexing problems, arising over the years, were referred. His sound advice, and foresight, gathered from his years of experience, added much to the welfare of our Town.

The Town has lost a valued citizen.

The year, 1958 was an excellent one for us.

Donations of books, money for their purchase, particularly books for the small ones among us, gifts from the Friends of the Library, assistance from the State has enabled us to create, what we believe to be as fine a Library for a Town of our size, as any in the State of New Hampshire.

During the year, considerable effort was made to enlarge our Reference section, with the result that many of our local students find material here at home, eliminating visits to the libraries in the large Metropolitan areas.

A writing area has been supplied, and much better illumination installed.

During the year, Mrs. Wheeler our librarian moved from town, after having served faithfully and well, necessitating a replacement. Mrs. Charles Goldsmith has taken over and is doing an excellent job.

The Friends of the Library are still active, and to them our sincere thanks.

Assistance has also been received in the general set-up from Mrs. Rachel Sanborn, Bookmobile librarian, and Mr. Allen Jr., Assistant librarian in the State Library.

We extend our sincere thanks to those who helped, through gifts and with physical assistance in the cause we sponsor.

Better reading for those who visit us.

CHESTER PUBLIC LIBRARY
LIBRARIAN'S REPORT

It is a privilege to submit my annual report on the Library.

Our book borrowing members and friends who visit our rooms must have noticed the improvements made during the year. New drapes have been hung at all windows, decorative items have been placed to show to better advantage. New lighting fixtures were installed thus creating almost day-light visibility for the entire area.

Our borrowing members now number 250.

Books added in 1958:

By gift	104
By purchase	93

Weekly exchange of books and magazines has shown an enormous increase over previous years, particularly the books read by the younger children.

Many new volumes have been added to our reference section such as: Collier's Encyclopedia - Van Ostrand's Scientific Encyclopedia and many others. There are many new volumes for readers of Fiction and Non-fiction available as well as the popular magazines.

When a requested book is not on our shelves, by Library ownership, it is quite possible for the Library to obtain the item, through loan, from the State Library of Concord.

The Bookmobile makes regular trips in this area, loaning many items of interest for our readers.

I am sure that a visit with us will persuade those who are not members to become one, and to return often to enjoy the privileges extended.

Cordially,

FLORENCE GOLDSMITH
Your Librarian

REPORT OF THE TOWN FORESTRY COMMITTEE

During the past year, due to various and sundry reasons, it was impossible for your Town Forestry Committee to really get an active program off the ground. However, it is intended that during the year 1959 the Town shall begin to see the results of our past year of investigation into the possible sources of revenue from this Town owned land.

We have had at least one large paper manufacturing company approach one of the members this past year relative to the possibility of purchasing hardwoods standing on the land.

Respectfully submitted,

YOU CAN HELP PREVENT FOREST FIRES

Twenty-five per cent of all forest fires in New Hampshire are caused from careless debris burning - brush, paper, leaves, grass, etc. Most of them are started without the required permit from the local forest fire warden. The cost of extinguishing these fires annually runs into large sums of money.

According to law, responsible parties must pay the cost of putting them out. In addition, violators may be subject to court prosecution with fines running as high as (\$200) two-hundred dollars.

In the interest of fire prevention why not eliminate burning at home? Use your town dump. It has been set up for your personal convenience. It provides a suitable place for the disposal of dangerous inflammable waste material and other useless items which accumulate around the home and local stores: brush, etc. cut on your property. Eliminate the hazard of burning yourself. It will be easier for you - personally and financially.

If, however, you do burn on your premises:

1. Secure a permit from your local forest fire warden - the law requires it.
2. Be sure to properly supervise your burning. Don't leave it.
3. Make certain your fire is DEAD OUT before leaving it.

Save yourself much possible difficulty. Use your town dump.

District Fire Chief
Forest Fire Warden

REPORT OF ZONING COMMITTEE

Recent experiences of other communities in outlining and preparing a Zoning Ordinance legally drafted and suitably adapted to local situations have been very disappointing. Currently changing ideas and thoughts have added to the problems which confront any group attempting to prepare a suggested ordinance acceptable to the majority and fair to the minority.

The New Hampshire State Planning and Development Commission have indicated that Chester's authorization for creation of a Planning Board should have been in different form and content to satisfy the legal requirements authorizing municipalities to establish such Boards.

Your Selectmen appointed a new committee during the year and it is the committee's suggestion that an affirmative vote be taken on Article No. in the warrant which will establish a Planning Board with authority.

TOWN REPORT

CHESTER, N. H.

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Chester, N. H. qualified to vote in district affairs:

You are hereby notified to meet at the Stevens Memorial Hall in said district on the 3rd day of March, 1959 at 8:00 o'clock in the afternoon to act upon the following:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a member of the School Board for the ensuing year.
5. To choose a Treasurer for the ensuing year.
6. To hear the reports of agents, auditors, committees or officers chosen, and pass any vote relating thereto.
7. To choose auditors for the ensuing year.
8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income: the school board to certify to the selectmen the balance between the estimated revenue and the appropriations, which balance is to be raised by taxes by the town.
9. To see if the district will appoint a committee to act in conjunction with the school board to report on the housing problem for the elementary pupils of the town at the 1960 school district meeting and pass any vote relating thereto.
10. To see if the school district will adopt as its school check list the town check list, as provided in RSA 197:12a, as inserted by Laws of 1957, chapter 57: this provision to be effective for the 1959 and subsequent annual district meetings.
11. To see if the district will instruct the School Board to report its Financial Statement, in the annual reports of the town of Chester, N. H. showing a complete record of all items of Income and Disbursements, designating the sources of income and parties to whom payments are made. (By petition)

REPORT OF THE HELPING TEACHER

The activities of the helping teacher have been discussed in the last three school reports. The general aim and the functions of the position have not changed. As in the past, most of the school day is spent visiting classrooms. A recent month is typical with approximately 100 visits to classrooms, 6 individual tests for pupils, 3 demonstration lessons, and 4 other occasions for participating in classroom teaching. These visits should lead to a better study of pupil needs and teacher requirements, a more co-ordinated program, changes in lesson presentations, and a strengthening of the program. An arithmetic workshop was held for the elementary school teachers in the union. This was conducted by representatives and consultants of the company producing the new text used in our schools. This was followed by observations of lessons and pupil work with the intent of improving the arithmetic program. The teachers are using some different approaches to help pupils to understand the various processes, but there is no lowering of standards. Pupils must still apply themselves and it is still necessary to learn the basic facts of the fundamental processes. However, it appears to be more and more difficult to arouse some pupils to point of mastery of these facts.

Assistance to teachers with curriculum problems has been given in several ways. Talking with teachers individually and issuing duplicated material for teachers in general are the most common methods. Efforts are constantly being made to strengthen various aspects of the curriculum and it will be necessary to continue these efforts. However, the standardized tests given each year have shown that our results compare favorably with the national medians. A study of the test results and class observations did show that additional work in geography was needed by many pupils. Suggestions have been made to the teachers and some of them are now in the process of reviewing sections of a guide to be compiled by the helping

teacher in hopes of improving the work in this subject. The language arts area is always one of concern even though the reading and penmanship phases are going well. We are concerned with spelling and written work. Efforts are being made to have the objectives and responsibilities more clearly defined in each grade.

There is a need to make better provisions for the wide range of abilities found in every class. One would probably find a number of pupils in the union who would profit from a small class under the direction of a person interested and trained in the teaching of pupils having specific learning disabilities. There are also those youngsters who should not be kept at an average learning pace because of their exceptional ability. Federal grants which have been made to the states during the year may help this situation in making it possible to have more visual aids, science equipment, reference, etc. Teachers and administrators are conscious of the needs of these youngsters with varying abilities and they are making an effort to provide for these differences. Supplementary books, demonstration materials, equipment for experiments, and other visual aids such as maps, globes, films, and filmstrips play an important part in meeting these various needs. I hope that it will be possible to continue to add to those materials already in the schools and perhaps the time will come when it will be possible to provide added services, in the form of trained personnel, for those with learning disabilities and those with exceptional abilities.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Chester School Board:

I herewith submit my seventeenth annual report as superintendent of schools in Chester.

STATISTICAL REPORT

ENROLLMENT

The total enrollment for grades one through eight for the period ending January 15th, 1959 was 183 compared to 178 for the same date last year and 175 two years ago.

The membership by school and grades as of January 15th, 1959 follows:

School	1	2	3	Grade 4	5	6	7	8	Total
Chester	21	28	20	22	17	25	25	15	173

The number of Chester pupils who were in high school on January 15, 1959 was:

School	Grade				Total
	9	10	11	12	
Hood Memorial	14				14
Pinkerton Academy		19	15	7	41
Manchester West		1			1
Raymond	—	2	1	—	3
Totals	14	22	16	7	59

Statistics for the School Year Ending June 30, 1958

Total registration	186
Half days schools were in session	356
Average membership	168.8
Average attendance	158.9
Per cent of attendance	93.6
Pupils transported at district expense	97.7

The following boys and girls who had completed the prescribed elementary program of studies were presented diplomas:

Cleary, Lillie K.
Clement, Phyllis
Clement, Richard
Coburn, James
Downing, Robert
Fullerton, Stephen
Hadd, Dennis
Hall, James

Inman, Donald
Kelley, Wilfred
Magee, Robert
Nicoll, Douglas
Swift, Marilyn
Towle, Marilyn
Wood, Cheryle

ENROLLMENT

The total and actual enrollments both are 5 pupils larger than last year. This is not too significant in itself. It is, however, significant when one considers that the school was previously overcrowded. The problem of housing the elementary children surely must be solved if the Chester children are to compete on equal terms with children of other communities.

There are several problems that are part of our educational scene. These problems are seemingly perennial. The one problem that is basic and contributes to all others is enrollment. The continued phenomenon of increasing number of births at a national, state and local level is the basic factor that is the cause of the problems besetting education. The capacity of buildings in many instances, and in Chester specifically, has been reached and exceeded. This results in a program of capital investment that stretches the credit of school districts to near the breaking point. It results in increased operational expense from the sheer force of numbers - books, supplies and equipment are in increased demand and generally at an increased price. It has created a demand for an ever increasing number of teachers. This demand, as well as increased living costs, has resulted in higher salary levels for teachers. There is no intent to imply that these problems are necessarily undesirable. The problems are and will continue to be present for some time to come as long as there is continued population growth.

There were no staff changes in the teaching personnel, supervisory staff or school nurse. This is a desirable condition. Progress generally is more constant and consistent if there is stability in the staff. The only change in personnel occurred in the office. Mrs. Katherine Ross retired after many years of service to the union. It will be some time before office personnel can gain the necessary background to render the high level of efficient service that she rendered so graciously.

The recently released Conant report will result in a changed approach to the solution of the problems of secondary education. The specific recommendations are made in an effort to make more effective the secondary education of our youth. The scientific manner in which the secondary schools were appraised resulted in these recommendations but also failed to produce the sweeping indictments recently so popular with lay writers. We, as a nation, strive constantly to provide better educational opportunities for our young people. This report is a striking example of how a Foundation works constructively to improve our society, in this instance in education.

A recognition that financial support is needed at a higher level than at state or local levels is seen in the National Defense Act. This provides for financial support (administered at state and local level) to improve the curricular offerings in several areas: namely mathematics, science, language, arts, counseling and guidance. It recognizes two problems: curriculum and finance. Provision is made in the local budget to take advantage of the provisions of the act, particularly in providing science equipment. The growing concern over educational problems - buildings, equipment, curriculum and finance - are tacit and vocal recognition of the obligation owed to the children of our nation.

The children of Chester are fortunate that so much is attempted to provide a real opportunity for them to grow through school and other activities. It is a pleasant task to assist in any way in the effort to improve the educational background of children and youth of the town.

EVERTON H. PARKINSON
Superintendent of Schools
